

We would like to inform you that the Council for International Organizations of Medical Sciences (CIOMS) is organising an **Open Meeting on Patient Involvement in Development and Safe Use of Medicines**, to be held on 30 April 2019 in Geneva.

Prominent speakers will present the current thinking of the [CIOMS Working Group XI](#) (WGXI). The main aim of the meeting is to open up the Group's work for questions, comments and suggestions from patient groups not represented in WGXI. The event also marks the 70th Anniversary of CIOMS.

The meeting is open to patient organisation representatives, regulators, drug development experts, industries, health professionals and anyone else interested. It will be a great opportunity for networking.

For details and on-line registration, please click [here](#).
