Greetings from the ISPE President

Dear ISPE Student Members,

I am delighted to share this edition of the newsletter, showcasing our student council's fantastic work and achievements. For me, being able to write this message is even more special as I started my research career as an ISPE student member.

Your engagement in ISPE opens doors to mastering pharmacoepidemiology methods, sharing research findings, participating in scientific dialogues, and forging new collaborations. Our society places a significant focus on nurturing student skills, methodological training, and networking to support your professional aspirations and contribute to the advancement of pharmacoepidemiology.

There are so many ways for you, as a student ISPE member, to get involved with the ISPE community:

- **ISPE Mentor-Mentee Match:** Enhance your capabilities and broaden your professional network, facilitating your growth as a pharmacoepidemiologist. <https://www.pharmacoepi.org/get-involved/mentor-match/>
- **ICPE Pre-Conference Skills Courses:** These courses, scheduled before our ISPE meetings, help you build and extend your research and leadership skills. If you can't attend in person, many of these are available in our education centre.
- **ISPE Education and Career Centres:** Hunt out our pre-conference courses in the education centre <https://www.pharmacoepi.org/resources/education-center> and touch base with the latest career opportunities in pharmacoepidemiology at our career centre <https://careers.pharmacoepi.org>.
- **ISPE Special Interest Groups (SIGs):** Find a research home in one of our SIGs. These concentrate on specific methodological and clinical topics, fostering the dissemination of information, idea exchange, and research network expansion.

The ISPE Student Council is a fantastic starting point for involvement. It connects students globally, allowing for discussing career-stage-specific ideas and issues and providing a voice within our society.

As this year's ISPE President, I have enjoyed working with our student members and really respect the Student Council's influence and leadership in addressing critical issues and shaping our society's future.

I extend my heartfelt congratulations to Liz and Jyotirmoy for their exemplary leadership of the Student Council and express my profound gratitude to the Student Council leadership team, Haedi, Samuel, Alekhya and Miyuki, and all Student Council members for their commitment and engagement with ISPE. I thank you for your enthusiasm and hard work in all that you do.

I look forward to seeing you in Berlin and hearing more about your achievements and aspirations.

Kindest regards and best wishes

Lisa

Lisa Pont BSc, BPharm, MSc(epidemiology), PhD,
FISPE

ISPE President 2023/24

News from the ISPE Student Council

Dear Colleagues,

We hope you all have had an enriching academic year! We've worked hard to represent students in ISPE and hope you have taken advantage of our offerings. We continued presenting educational webinars focusing on skills to develop as early career researchers as well as hosted conversations on careers after graduate school. New this year - we conducted interviews with pharmacoepidemiologist and are posting these on the ISPE Exchange – make sure you sign up for notifications from the Student Council. This is also where we distribute notifications on post-docs and early career positions as we receive them. If you missed any of our webinars, many are available on the ISPE Education Center, as mentioned by Lisa above.

The ISPE Midyear Meeting in Orlando was a success! The Student Council served on the planning committee and coordinated the peer reviews for 62 abstract submissions – thank you to those who submitted their abstracts and those who served as reviewers. The midyear meeting is paused for next year but will return in 2026.

This year we organized our first ISPE Research Proposal Competition and are very proud of our efforts! We had participation by 26 student teams with the same number of expert reviewers recruited throughout ISPE, giving all submissions two independent reviews full of insight and constructive feedback. Please let us know if you think we should make this an annual competition – or just say hello to us in Berlin! This is the 40th anniversary of the ISPE Annual Meeting. The student council served on the planning committee, and we're excited to be attending. We'll be at the Meet and Greet Sunday and New Members Luncheon on Monday.

Additionally, the Student Council will be hosting the conference student social event (Monday, 7-11pm) and Student Council meeting (Tuesday, 6-7pm). You'll find the location info at the conference and do bring your conference badge to all ISPE events. We hope to see you there! **At the meeting on Tuesday, we'll be voting for the next Student Council leaders. If you're interested, please complete this form ASAP:**

<https://docs.google.com/forms/d/1WE0j8nz8fVAUarH6QEoFDIIFHTGuv3jOgiWG9BWsxU/edit>

In this newsletter, you'll find news from some of the ISPE student chapters around the world and a recap of SISPE events this year. Thanks again for being part of our fantastic Society of likeminded researchers!

All the best,

Liz, Jyoti, Haedi, Sam, and Alekhya

Title: Real-world comparative effectiveness and safety of GIP/GLP1 dual agonist and GLP1 receptor agonist among patients with type 2 diabetes mellitus

GIP: glucose-dependent insulinotropic polypeptide

GLP1: glucagon-like peptide-1

China Pharmaceutical University

Board: Si Chen (President; 3323041337@stu.cpu.edu.cn), Bingxin Liu (Secretary; cpu_liubingxin@163.com); Yimei Zhong (Head of the Publicity Department, cpu_ymzhong@163.com); Yunkun Zhuli (Deputy Head of the Publicity Department; 3323041291@stu.cpu.edu.cn); Siyu kong (Financial Officer; kongsy7224@163.com)

Chapter activities / information:

The CPU. ISPE student chapter was formally established in September 2021 and was the first ISPE student chapter in the mainland China. Currently the CPU. ISPE chapter has 32 active members, which are from the areas of Pharmacy, Pharmacoeconomics, Public Health, Applied Statistics and Pharmacoepidemiology programs at CPU.

The aim of chapter is to deepen the understanding of the field of pharmacoepidemiology among its members and participating students by organizing graduate academic seminars, inviting experts in pharmacoepidemiology for academic sharing sessions, engaging in project exchanges and collaborations with international scholars, and publishing original articles on the CPU. ISPE student chapter 's online platform.

Some Chapter news / updates:

2023.06 Organized members to participate in the Drug Economics Annual Conference hosted by the Chinese Pharmaceutical Association (left). 2024.04 Organize members to engage in project exchanges with Professor Salah Ghabri from the French Health Insurance Agency, invited by Professor Zhou (right).

2024.04 National Government Scholarship Sharing Session invited Chinese students from Lyon 1 University in France to share insights on the scholarship application process, material preparation, and application timeline (left). 2024.04 The third transition meeting of CPU.ISPE student chapter was successfully held (right).

Dutch Student Chapter of
The International Society
for Pharmacoepidemiology

Board: Melissa Leung (President; m.w.y.leung@uu.nl), Laura Zwiers (Vice-President; laura.zwiers@juliusclinical.com), David Liang (Secretary; d.liang@uu.nl), Tu Pham Hien Trang (Treasurer; t.p.h.trang@uu.nl)

CHAPTER ACTIVITIES/ INFORMATION

The Dutch SISPE serves as a network between pharmacoepidemiology students to facilitate cooperation, showcase research, and share knowledge. We hope to connect pharmacoepidemiology students and research institutions in the Netherlands to each other, build bridges to their counterparts in Europe, and ultimately facilitate connections worldwide.

During the past year, we have sent bi-monthly information email/ newsletter to the chapter members, to get them informed and engaged with relevant events and news in the field of pharmacoepidemiology, such as the career workshop event hosted by the ISPE Student Council and the Real World Evidence Proposal Competition. The members of the Dutch ISPE have also formed a team to join the competition!

We have also expanded our educational activities within our Dutch ISPE Student Chapter by inviting Dutch student chapter members to the monthly method discussion sessions at Utrecht University. The topics of the recent sessions include Estimands in observational pharmacoepidemiologic comparative effectiveness and safety studies, Guidance on the use of RWE in drug regulatory decision making, and Data Mining in R.

CHAPTER NEWS/ UPDATES

In early 2024, the number of members in our student chapter reached 40, spanning over 10 universities in the Netherlands and Belgium. We have also recently started our LinkedIn page: <https://www.linkedin.com/company/dutch-ispe-student-chapter/>, which serves as a social platform to promote our activities and connect with other experts and organizations in the field.

In the next period, we plan to organize more educational activities and career development activities that are tailored to the need and preference of our SISPE members. The next planned event will be held in September 2024, a hybrid seminar with the (tentative) topic on recent advancements in RWE methods.

End-Year Report 2023-2024
Harvard Chan Pharmacoepidemiology Student Chapter

Officer Information:

Officer Name	Position	Email Address	Graduation Date
Mohamed Ali	President	mohamedali@hsph.harvard.edu	May 2024
Lisa Weissburg	Vice President	lweissburg@hsph.harvard.edu	May 2024
Amina Alkhalaf	Treasurer	aminaalkhalaf@hsph.harvard.edu	May 2024

Officer Transition:

All 2023-2024 officers are graduating. 3 new officers were chosen via application and met with outgoing officers and club advisor in April 2024.

Officer Name	Position	Email Address	Graduation Date
Denys Shay	President	denys_shay@g.harvard.edu	May 2025
Yichen Ethan Fang	Vice President	yichenfang@hsph.harvard.edu	May 2025
Katherine Crum	Treasurer	kcrum@hsph.harvard.edu	May 2025

Summer Student Organization Liaison for 2024: Denys Shay, denys_shay@g.harvard.edu

Events Fall 2023:

Pharmacoepi Social: November 30, 2023

Networking event for students to engage with other students and faculty who are interested in or working in pharmacoepidemiology.

Pharmacoepi Journal Club with Dr. Edouard Fu: December 11, 2023

Hybrid in-person/Zoom event to discuss recent publications in pharmacoepi research with Dr. Edouard Fu, a postdoctoral research fellow at the Division of Pharmacoepidemiology and Pharmacoeconomics at Brigham and Women's Hospital and Harvard Medical School.

Events Spring 2024:

*Pharmacoepi Career Panel #1: January 26, 2024

- Career panel event for students to engage with people working in pharmacoepi in various settings.

*Pharmacoepi Career Panel #2: March 29, 2024

- Career panel event for students to engage with people working in pharmacoepi in various settings

*Officer transition meeting: April 24, 2024

- Incoming and outgoing officers met with club advisor to discuss transition logistics, opportunities for next year.

Academic Year: August 2023- May 2024

Chapter's Faculty Advisor: Dr. Jodi Segal (jsegal@jhmi.edu)

Student Chapter Officers

President: Corey Joseph (cjoseph9@jh.edu), **Vice President:** Aster Meche (ameche1@jhmi.edu)

Secretary: Jamie Heyward (jheywar1@jhu.edu)

Chapter Activities

Journal Club: The JHU ISPE student chapter successfully continued its tradition of monthly journal club meetings. In these sessions, current trainees read and discussed a selected pharmacoepidemiology paper. Each month, a different trainee facilitated the journal club, posing questions to attendees to guide the discussion. The last journal club was held in April 2024, where Michael Chiu and Rupshikha Sen led the discussion on the paper "Interrupting Endocrine Therapy to Attempt Pregnancy after Breast Cancer." (NEJM, 2023)

CDSE Seminar Series:

We co-sponsored, along with the Johns Hopkins Center for Drug Safety and Effectiveness (CDSE), the 2023-2024 CDSE "Safety, Value, and Innovation" Seminar Series, which was held once a month. This series featured visiting speakers who represented thought leadership from across academia, regulatory, and industry sectors. The last seminar was held in May 2024, where Dr. Suzanne Cadarette, PhD, an Associate Professor of Pharmacy and Epidemiology at the University of Toronto and a Fellow of the World Health Organization Collaborating Centre for Governance, Transparency, and Accountability, gave a wonderful presentation titled "Evolution of a Field: Osteoporosis Pharmacoepidemiology."

Communications:

Our ListServ, which boasts over 150 members, is a vital communication tool for our student chapter. We send bimonthly emails to keep everyone informed about ISPE-related lectures and conferences, internships, journal clubs, and various training opportunities. This regular communication ensures that all members stay updated on important events and resources that support their professional development in pharmacoepidemiology.

End of the Year Gathering:

We co-sponsored an end-of-year gathering with the CDSE to celebrate another year of learning and discovery together. This event provided a wonderful opportunity for members to reflect on the past year's achievements and enjoy each other's company.

ISPE Annual Meeting:

We are excited that this year we have several students attending the ISPE annual meeting in Berlin, Germany in August 2024. A handful of our students have received acceptance for poster presentations. Jamie

Heyward will be presenting his research titled "Assessment of Risk-Benefit Balance of Immune Checkpoint Inhibitors in a Real-World Lung Cancer Population," and Lijuan Zeng will be presenting her research titled "Characterizing the Use of Weight Loss Medications in People with Obesity-Related Asthma in the All of Us Research Program."

Board: Rachelle El Haber (rachel.elhaber@mail.mcgill.ca)

Stephen Ogbodo (stephen.ogbodo@mail.mcgill.ca)

Estefania Zapata-Bravo (estefania.zapatabravo@mail.mcgill.ca)

CHAPTER NEWS/ UPDATES

July 30, 2024

After a brief period of relative inactivity, we are excited to announce the appointment of new leadership for our McGill Student Chapter. Beginning in the Fall of 2024, Rachelle El Haber, Stephen Ogbodo, and Estefania Zapata-Bravo will take over as the new leaders of our chapter.

The team plans to organize multiple seminars featuring invited special guest speakers, who will both discuss their research and share Industry career tips with our members. We hope that these events will keep us abreast of the latest developments in pharmacoepidemiologic research and prepare us for life after school.

Broad: Steven Chin-Yao Shen President; steven_shen0507@hotmail.com), Chris Tzu-Ting Su (Secretary; chrissu0107@gmail.com), Daniel Hsiang-Te Tsai (Treasurer; danielhttsai@gmail.com)

Chapter activities/information

- Showcase for 2023 presentation.

We created a website to highlight the presentations from our institute that were accepted for the ICPE event in 2023. You can find the QR code on the right. We also added this QR code to our posters and distributed name cards to attendees, inviting them to explore our research and share their feedback on the website. These initiatives boosted our visibility and led to more frequent interactions with international participants.

- Invited talk with International Scholars

This semester, we invited renowned epidemiologists from Taiwan to share their past research experiences with us. Joshua Lin from Harvard University discussed how to use High-Dimensional Proxy to adjust for confounding factors in EHR and claims databases. Wan Ting Huang from SPEAC explained the application of epidemiological methods to promptly assess the safety of vaccines or drugs for unknown infectious diseases. Dr. Hui-Ju Tsai from the National Health Research Institutes shared insights on integrating genomic information with pharmacoepidemiology. Professor Pei-Chen Lee from NCKU's School of Public Health led a discussion on the similarities and differences between environmental epidemiology and pharmacoepidemiology. Through interactions with experts from various fields, we gained a broader perspective on the potential developments in our field. We learned how to combine pharmacoepidemiology with other disciplines, paving the way for potential collaborations beyond the realm of pharmaceuticals.

- Increased Cohesion

In February 2024, the members of our student chapter and faculty embarked on a team-building trip to Yilan, Taiwan. Yilan is renowned for its beautiful landscapes, hot springs, and rich cultural heritage. This trip helped us to strengthen our bonds, improve teamwork, and foster a sense of unity among our members.

- Presentation skill workshop

We joined the Presentation Skill Workshop focuses on understanding the key considerations behind creating effective teaching presentations using the SOIL principles (Selection, Organization, Integration, and Learning) and AMA tools (Activate Mind and Attention). We can learn the method of how to apply these techniques to enhance the teaching of pharmacoepidemiology.

University of Basel & Boston University

The student chapter once a year organizes a meetup with its members to catch up, talk about our projects and have dinner together. In May, we visited the Taverne Johann and spent a great evening together. Moreover, we try to visit ICPE together every year, to educate ourselves about pharmacoepidemiology and connect with others outside our group. In 2023, three students went to ICPE in Halifax.

In 2023 two former members of our Student Chapter, Marco Ceppi and Noah Aebi, successfully defended their PhD Thesis. On the other hand, we are pleased to welcome Marietta Roth as a new PhD student in our chapter.

CHAPTER ACTIVITIES/ INFORMATION

The University of Florida (UF) ISPE Student Chapter is a vibrant community of Master and PhD students from the Pharmaceutical and Policy Program, Epidemiology Program, and Health Outcomes and Biomedical Informatics Program at UF. Our members actively participate in the ISPE mid-year and annual meetings, showcasing their research and engaging with professionals in the field of pharmacoepidemiology. We organize a variety of events, including career-sharing and internship-sharing sessions, where students can gain insights and network with experts from academia and industry. We also host professional workshops covering essential topics such as claims database introduction and the application of epidemiology and biostatistical methods. These activities are designed to bridge the gap between theoretical knowledge and real-world application, enhancing the professional development of our members.

CHAPTER NEWS/ UPDATES

General Body Meeting

We kicked off the fall semester with a general body meeting, where we introduced the functions of the International Society for PharmacoEpidemiology (ISPE) and the ISPE Student Chapter, along with our current board members. During the event, we also highlighted the ISPE Student Council Activities and Opportunities and discussed our upcoming activities for this year. This meeting set the stage for an engaging and productive year ahead.

Internship Sharing Event

During our internship-sharing event, we invited speakers who had completed internships at pharmaceutical companies and research institutions to share their experiences. We discussed when and how to start finding internships and shared insights on interview preparation and the differences between in-person and remote internships. More importantly, we provided guidance on managing workloads and learning through practical experiences during internships.

Professional Workshop-Propensity Score Weighting

In our workshop, we learned how to use the SAS program to conduct research using the Medical Expenditure Panel Survey (MEPS) dataset. Using a research topic from a published paper, we demonstrated how to use survey data to create a study cohort. This included extracting our exposure, covariates, and outcome of interest. Following this, we applied the propensity score weighting method we learned during the course to real-world data, bridging classroom knowledge with practical application.

- **Secretary:** Michael Kim
 - **Email:** mkim379@uic.edu
- **Treasurer:** Ebere Okpara
 - **Email:** eokpar2@uic.edu

Chapter Activities / Information:

The ISPE Student Chapter at UIC, primarily led by graduate students from the Department of Pharmacy Systems, Outcomes, and Policy, welcomes participation from all students within the UIC College of Pharmacy and the School of Public Health. The chapter is dedicated to promoting pharmacoepidemiology by providing a platform for sharing knowledge, conducting research, and exploring career opportunities.

The mission of the chapter is to create an environment where members can interact and collaborate with peers to gain a deeper understanding of pharmacoepidemiology. This helps members make informed career decisions and contributes to the growth of the field. To achieve this mission, the chapter organizes various events and activities, including guest lectures, workshops, and seminars, to introduce members to career opportunities in pharmacoepidemiology and provide resources for professional development and networking.

Chapter News / Updates / Events:

Over the past year, the ISPE Student Chapter at UIC organized four key events. The first event was a student social to welcome and integrate new members, offering networking and connection-building opportunities. The chapter then hosted a panel discussion for prospective PhD students, providing guidance on the application process and success in studies. During the UIC College of Pharmacy Research Day, the chapter presented the Student Chapter Choice Award for the top poster presentation in pharmacoepidemiology. The final event featured a speaker addressing pharmacist fatigue and medication errors, offering valuable insights and practical strategies.

The ISPE Student Chapter remains committed to advancing its members academic and professional development, continuing its tradition of excellence into the coming year.

University of North Carolina at Chapel Hill

Co-President: Elyse Miller (emvmccoy@email.unc.edu)
Co-President: Jacob Kahrs (jkahrs@unc.edu)
Treasurer: Maddy Ponder (mponder@unc.edu)
Faculty Advisor: Michele Jonsson-Funk (mfunk@unc.edu)
General email: sispe@office.unc.edu

Activities/Information

- Hosted the academic showcase and alumni/student reception at ICPE 2023 in Halifax, Nova Scotia, Canada.
- Hosted a fall picnic for SISPE members to get to know new students in the program and new and current faculty
- Competed in the annual Pi day (3/14) pie competition hosted by UNC pharmacoepidemiology faculty
- Organized monthly happy hours with students and faculty following our pharmacoepidemiology seminars.
- The Center of Pharmacoepidemiology at UNC celebrated its 20th year as a pharmacoepidemiology program in the Department of Epidemiology, and celebrated in December 2023.

Chapter news/Updates

- SISPE will be hosting the 17th Annual Harry Guess Memorial Lecture in Fall 2024. The lecture was rescheduled from May 2024—more details incoming!
- The speaker will be Sebastian Schneeweiss, MD, ScD.
 - Professor of Medicine, Harvard Medical School
 - Chief, Division of Pharmacoepidemiology, Department of Medicine, Brigham and Women's Hospital
 - Professor, Department of Epidemiology, Harvard T.H. Chan School of Public Health

PHARMACY PRACTICE – HEALTH OUTCOMES

Board: Marianne Naana Otoo (President; naanaotoo@uri.edu), Ramez Rizk (Vice-President; ramez_rizk@uri.edu), Abiodun Ologunowa (Secretary; aologunowa@uri.edu), Joseph Osagie (Treasurer; joseph_osagie@uri.edu)

Faculty Advisor: Dr. Xuerong Wen (xuerongwen@uri.edu)

CHAPTER ACTIVITIES/ INFORMATION: The ISPE student chapter at URI hosted a meet-and-greet session in April 2024. It was intended to introduce the society to Pharm D students and pique their interest in the Health Outcomes specialization of newly introduced Accelerated Pharm.D. – M.S. program at the College of Pharmacy. The students were introduced to the mission, vision, goals and activities by the faculty advisor - Dr. Xuerong Wen and also introduced to the various opportunities available to students in ISPE by the president – Marianne Naana Otoo.

Graduate students who had their abstracts accepted for the ISPE mid-year meeting in Florida also gave short presentations of their posters at the event.
